Biometric
Time Attendance Machine

Get Managed
the complete control

Advance Biometric Solution

Biometric Time and Attendance Machines help in automation of attendance of the employees. Biometric Machine can help in tracking the IN and OUT time duration of employees, total work duration, lunch breaks.

There are several types of biometric time and attendance machines used in industry. YASHMEHUL provides lowest price on best Biometric Attendance Machine.

Biometric Attendance Devices for Multi-Location Offices. These are low and best price biometric attendance machine. Best time and attendance machines for all your needs.

School
Attendance System

Even schools have also started preferring automated school attendance system to manage all students records for teachers to weigh up, and parents to stay updated. Previously it was done manually which was actually a tedious and time consuming task with lots of hassles. It was sometimes quite confusing as well.

A school attendance system is a realistic software application that is used by school administration or teachers to keep track of students. In school attendance system, students need to punch in while entering class/school to enroll their attendances automatically and therefore no student can proxy for other students. Various companies offer various school attendance systems. Another attractive and convenient feature of school attendance system is online grade book system, where teachers can enter grades from home and can print report card just with a click.

These products find wide application in institutions, schools, colleges, offices and other similar award functions. Customers acknowledge the strength, durability, reliability.

^{Our} Printing Services

The Printing Press Inc is a full service printer, which means we can do just about anything. In addition to printing, we provide the following services to help you complete your project.

Graphic Design Services

Our professionally trained graphic designers are computer artists who know how to use their creative abilities to improve the look of your printed projects.

Creative use of color, typography, photos, and illustration can dramatically improve the effectiveness of your project. Good design can help create a favorable impression that makes your company and its products stand out in the crowd.

Our designers are skilled at creating attention-getting brochures, sell sheets, booklets, manuals, and newsletters. They also specialize in the creation of business forms and all types of workplace

Color Printing

The demand for full-color printing is exploding, and why not? Studies have repeatedly shown that full-color printed materials are more "influential" and promote higher response rates than two-color or black-and-white materials. This holds true whether those print pieces are used for sales, marketing, or educational purposes. Adding color will cost more, but it serves a useful purpose. If you're considering moving up to full-color printing, give us a call. We're experts at color printing and look forward to putting our knowledge to work for you.
